

# ALUMINUM BRIGHTENER & RUST REMOVER

## Aluminum Brightener

A concentrated, industrial strength acid brightener formulated to clean and brighten aluminum, stainless steel, copper, brass and nonferrous metals. Aluminum Brightener will remove aluminum oxide, rust and salt corrosion leaving a rejuvenated metal surface. When applying Aluminum Brightener to surfaces do not allow to dry on surface before rinsing.

## Physical and Chemical Properties

• Information on basic physical and chemical properties

• **Appearance:**

Form: Liquid  
Color: Colorless

- **Odor:** Not determined.
- **Odor threshold:** Not determined.
- **pH-value at 20 °C (68 °F):** 2
- **Melting point/Melting range:** Not determined.
- **Boiling point/Boiling range:** >100 °C (>212 °F)
- **Flash point:** Not applicable.
- **Flammability (solid, gaseous):** Not applicable.
- **Auto-ignition temperature:** Not determined.
- **Decomposition temperature:** Not determined.
- **Danger of explosion:** Product does not present an explosion hazard.

## Applications

- Truck and trailer rails
- Cleaning and brightening
- Aluminum wheels
- Stainless steel
- Aluminum parts and sheets
- Castings
- Tanks

## Recommended Dilution Ratios

- Removal of oxidation, rust and corrosion: Dilute 8 to 12:1 with water
- Cleaning and brightening of aluminum trailers and pontoons: Dilute 6:1 with water

**WARNING:** Not for use on fiber material, cloth, upholstery, glass or anodized surfaces.
